

# Initial and Mastery Assessments

Assessments offer accurate information on reading progress, demonstrating whether what has been *taught* has actually been *learned*, and providing transparent information for school/college and Pupil Premium records.

Tutor and Student Assessment pages should be photocopied before the test. Tutor copy should be marked and filed but Student copy can be re-used.

Every assessment consists of 100 words. After each one, the MRI graph should be completed, showing the number of words read correctly.

Downloadable graph at: [www.piperbooks.co.uk/free-resources-MRI-books](http://www.piperbooks.co.uk/free-resources-MRI-books)

**General Recommendations:** The correspondences underlined are those that will be introduced in this Set. So reassure the student that there are words in this Assessment that s/he may not be able to read yet.

A minimum of errors together with a degree of fluency should be established throughout each Set. When fewer than 96 words are read correctly during an assessment, a student should be invited to choose those stories s/he would like to reread and encouraged to read them with expression. Fluency and expression are important elements and need to be secure.

**Optional:** When the Initial Assessment is repeated after completion of a Set, it provides a snapshot of the extent of progress and can act as a morale booster for the student who now has concrete feedback on his/her progress.
